CO-WIP Participant Feedback

“Overall it was a lifetime experience...coming to the U.S. as an older IMG made me feel that I will no longer be able to practice medicine here, but being part of this program...made me hopeful again...even if I got delayed in my exams, I can still do it and one day I will come to share my success story as well.”

“As an IMG, this journey can feel overwhelming at times, but thanks to this organization, I have never felt alone. I am deeply grateful for everything they have done for me, and I honestly cannot thank them enough.”

“The atmosphere felt like family, creating a safe space where everyone could be open, vulnerable, and deeply trusting of the incredible staff. I highly recommend Spring Institute to any IMG—the guidance is invaluable, and the supportive community makes a challenging journey truly manageable.”

“The program also guided me to use the assistance wisely, and it opened doors to professional connections that led to my current job as a medical interpreter, which has been an important step toward my career goals.”

“The Spring Institute IMG Assistance Program empowers IMGs by providing not only career guidance, but also the emotional, financial, and professional support needed to succeed. It gave me hope, connected me with a supportive community, and helped me take meaningful steps toward contributing to the U.S. healthcare system.”

“Each of my one-on-one coaching sessions was very helpful in supporting my career growth. I received valuable guidance on choosing study resources, creating a personalized study plan, building a professional resume, expanding my network, and finding a job in my field.”

“The job search process in the U.S. is very different from that of my home country, and the guidance provided helped me navigate it with greater confidence.”
